

## Copper-W@y® PRODUCTS

### Cat3 25/50/60 VOICE PATCH PANELS

- 19" rack mountable
- High voice rate
- Low cost and easy to install
- Available in 25, 50 and 60 port options
- Phosphor bronze with 50 micro inches gold plated
- Termination accepts 22, 24, 26 AWG (0.64, 0.5 and 0.4 ) solid wires
- IDC terminal (Krone/110) block mounted on a PCB
- Exceeds ANSI/TIA/ EIA-568-A/ B
- Structured application on CO and internal telephone lines of PBXs
- Modularity offers easy x-connect

#### Applications

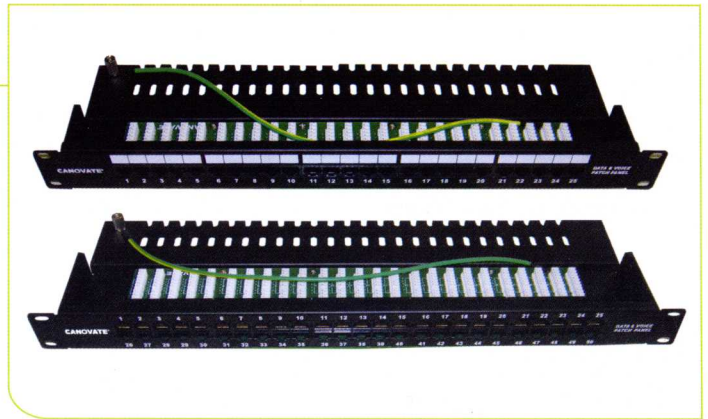

- Voice applications
- Structured cabling vertical & horizontal terminations
- Terminations on junction points in noisy environment

UTP 25 Port Horizontal Cat3 Patch Panel

UTP 50 Port Horizontal Cat3 Patch Panel

UTP 25/50 Port Horizontal Cat3 Patch Panel

#### ORDER TABLE FOR VOICE PATCH PANELS

CPPT-X<sup>1</sup>-XX<sup>2</sup>-XX<sup>3</sup>

X<sup>1</sup> : IDC Type  
 K : Krone      D : Dual block  
 H : 110 block B : Blank

XX<sup>2</sup> : System  
 AN : analogue    IS : ISDN

XX<sup>3</sup> : Number of ports  
 25/50 /60

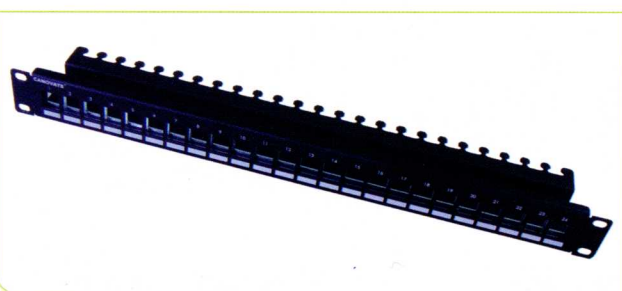

Example : CPPT-D-AN-25 = 25 port, dual block, analogue voice patch panel

### KEYSTONE PATCH PANELS

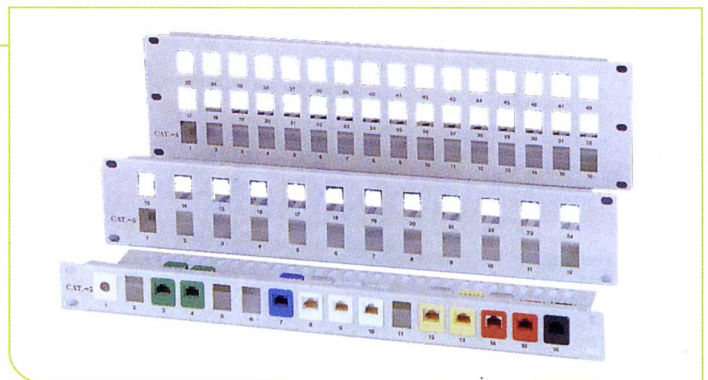

- Minimal cross-talk provides high data rates
- 110 Type IDC terminal block keystone jacks unshielded or shielded
- High quality components
- Available 16, 24, 32, 48 port applications
- Precautions for re-wiring provide quick access and cost savings for installation
- 19" rack mountable

#### Applications

- LAN applications
- Horizontal cabling applications
- Terminations on junction points in noisy environment
- Time saving applications
